

I am writing to you on behalf of the impact that K-Love radio has had on me and the students I work with. The music that is played and the "message" it conveys is uplifting and encouraging to young people and adults to live good, law-abiding lives. K-Love gives me common ground as I work with local teenagers and can encourage them in a very discouraging world. K-Love also communicates special events to the Chicago-land community that I would not hear of, otherwise.

I am concerned that if LPFM stations are given priority, I & my community will be deeply affected by the possible loss of life-affecting station.

Thank you for your attention to the matter.
